

ROHIT RAHEJA

IBDP Computer Science Examiner

IGCSE | Cambridge | CBSE Computer Science & ICT Educator

rohitraheja@outlook.in | rohitraheja1990@gmail.com | +91 9582 737373 | Delhi, India | LinkedIn

Professional Summary

Dynamic and experienced Computer Science and ICT educator and appointed IBDP Computer Science Examiner, with 10+ years of international teaching, assessment, and academic leadership experience spanning IBDP, IGCSE, Cambridge, and CBSE curricula. Deep expertise in IB assessment philosophy, including criterion-referenced marking, Internal Assessment supervision, moderation practices, and command term interpretation, now reinforced by first-hand experience marking IBDP Computer Science examinations to official IB standards. Combines strong curriculum design, teacher training, and educational technology integration skills with over four years of real-world software/web development and IT management experience, enabling practical, industry-informed teaching of programming, data science, and applied computing.

IB Examiner & Assessment Expertise

- Appointed IBDP Computer Science Examiner, marking IB Diploma Programme Computer Science examinations to official IB standards
- Supervision, assessment, and internal standardisation of IBDP Computer Science Internal Assessments (IA)
- Strong command of IB command terms, markbands, and assessment objectives
- Design of IB-style formative and summative assessments aligned to criterion-referenced marking
- Application of positive marking principles and consistent, defensible grading practices
- Preparation of students using examiner reports, moderation feedback, and past paper analysis
- Trained in DP/CP Assessment (Category 3) and Theory of Knowledge / TOK (Category 3)
- Cambridge IGCSE Computer Science (0478/0984) Category 1 & 2 Marking Workshop certified
- Maintains the strict deadlines, confidentiality, and consistency required for IB marking and standardisation activities

Core Competencies

Curriculum & Assessment

- IBDP Computer Science (SL/HL), IGCSE Computer Science, Cambridge AS & A Level Computer Science, CBSE Computer Science & Informatics Practices
- Internal Assessments (IA), Extended Essays (Computer Science), AP Computer Science A
- Assessment design, marking schemes, rubrics, and moderation

Programming & Computer Science

- Python, Java, C++, C#, SQL (SQLite, PostgreSQL), Django, HTML/CSS/JS, Bootstrap
- Algorithms & computational thinking, data analysis, data science, artificial intelligence
- Databases, object-oriented programming, data representation, web application development

IT Infrastructure & Networking

- Network hardware fundamentals - routers, switches, LAN/Wi-Fi setup, and connectivity troubleshooting
- Practical grounding from IT systems management (Go Legal Consultancy) and from teaching networking concepts within the ICT curriculum

Educational Technology & Tools

- Tableau, FigJam, GPTs and AI tools for education, online assessment platforms
- Digital academic integrity and AI-aware assessment design
- Adobe Illustrator, Photoshop, Lightroom; WordPress and Wix website management; AWS web services

Professional Experience

Teaching Faculty, Senior Years - **Shiv Nadar School** | *July 2022 - Present* | *Gurugram, Haryana*

- Plan and deliver learner-centred lessons in IBDP, IGCSE, and CBSE Computer Science, and Data Science, with emphasis on inquiry, analysis, coding, and problem-solving
- Supervise, assess, and internally standardise IBDP Computer Science Internal Assessments, ensuring clarity of criteria, consistency of marking, and constructive feedback
- Design IB-style formative and summative assessments using command terms, markbands, and criterion-referenced evaluation to strengthen exam readiness
- Conduct teacher training workshops on assessment design, data analysis using Tableau, FigJam for collaborative learning, and responsible integration of ChatGPT/AI tools in education
- Serve as a faculty member of the Environment Team, actively participating in the IBDP evaluation process
- Facilitate the student-driven Coding Club for Senior Years and Middle Years, enhancing student engagement in programming
- Serve as Award Leader for the International Award for Young People (IAYP), supporting student leadership and holistic development
- Completed IB-certified training: Computer Science Category 1 & 2, DP/CP Assessment Category 3, TOK Category 3
- Completed Cambridge IGCSE Computer Science (0478/0984) Category 1 & 2 Marking Workshop
- Attended Professional Development Programme on Design Thinking conducted by TISS, Mumbai
- Attended training/workshops under the Teachers' Continuous Development Programme and multiple Career Guidance Programs

PGT Computer Science - **Sapphire International School** | *June 2021 - July 2022* | *Noida, Uttar Pradesh*

- Taught Computer Science and Informatics Practices (Grades 11-12) and ICT (Grades 7-10)
- Collaborated with MindBox on ICT curriculum for Grades 1-8
- Introduced and supported an AI curriculum in collaboration with LearnPanda for Grades 6-8
- Core member of SQAAP (School Quality Assurance and Assessment Framework), contributing to curriculum alignment, academic planning, and quality enhancement under NEP-2020, including initiating integrated curriculum planning
- Supported examination processes and digital evaluation systems, including creating templates for question papers and answer keys
- Created graphics and banners using Adobe Illustrator and Photoshop
- Provided technical support to Dance, Music, and Art Departments for events such as Annual Day and Sports Day

IT Teacher - **Rukmini Devi Public School** | *February 2021 - May 2021* | *New Delhi*

- Taught Computer Science and Artificial Intelligence across Grades 3-12
- Taught foundational ICT concepts, including computer hardware, components, and basic networking, as part of the Grades 3-8 curriculum
- Designed structured assessment material and rubrics for ICT courses
- Conducted ICT teacher training sessions and created in-house academic resources, including ICT books for Grades 6-8
- Managed and updated the school website using WordPress; digitised school records previously maintained in hard copy
- Conducted a Summer Training Camp for Grades 5-10
- Participated in events and competitions under the Atal Tinkering Labs (ATL) initiative
- Provided technical support for examinations and debugged ERP-related issues for teachers

Senior IT Manager - Go Legal Consultancy | October 2018 - January 2021 | New Delhi

- Designed and developed data-driven, dynamic web applications (e-commerce portal, blogging platform, admin dashboards) using Python, Django, SQLite, and PostgreSQL
- Developed static websites (landing, countdown, and informational pages) using HTML, CSS, and JavaScript
- Integrated payment gateways (Paytm, Stripe, Razorpay) and SMS-based OTP validation for customer authenticity
- Led technology implementation, automation, and system optimisation initiatives
- Managed office network hardware and IT infrastructure, including setup, maintenance, and troubleshooting of routers, switches, and connected systems
- Managed digital marketing campaigns across social media (Facebook, Instagram) and email (Mailchimp)
- Designed branding material including annual calendars, magazines, and logos using Adobe Illustrator, Photoshop, and Lightroom
- Researched and imported IoT devices from Singapore and Shenzhen; managed resources and follow-up on work allocated to employees

TGT Computer Science - The Heritage School | September 2014 - August 2018 | Rohini, New Delhi

- Taught Computer Science across Grades 3-12, including FIT, Computer Applications, and senior secondary CS
- Designed assessments, marking schemes, and coding tasks for multiple grade levels
- Conducted IT teacher training programmes and supported academic technology initiatives
- Managed school social media platforms (Facebook, Instagram) and rolled out the Acceptable Usage Policy (AUP)
- Core member of the School Admission Committee, assisting administratively with Nursery admissions
- Head Member of the IT Team for inter-school and intra-school MUN sessions
- Member of the Cyber Congress Team, assisting in resolving cyber-related queries
- Supported Science, English, French, and Mathematics departments in conducting online tests, competitions, and workshops in computer labs

Education

- B.Ed. (Computer Science & Mathematics) - Maharshi Dayanand University, 2023-2025
- MCA (Master of Computer Applications) - Guru Gobind Singh Indraprastha University, 2011-2014
- B.Sc. (Hons.) Computer Science - University of Delhi, 2008-2011
- Senior Secondary - Maharaja Agrasen Model School, 2008
- Secondary - N.K. Bagrodia Public School, 2006

Professional Development & Certifications

- IB Computer Science Category 1 & 2 (Subject-Specific Training)
- IB DP/CP Assessment Category 3
- IB Theory of Knowledge (TOK) Category 3
- Cambridge IGCSE Computer Science (0478/0984) Category 1 & 2 Marking Workshop
- Teacher training delivered in Tableau, FigJam, ChatGPT/AI integration, and digital assessment practices
- Professional Development Programme in Design Thinking - TISS, Mumbai
